

Kawartha Woodturners Guild

Meeting Demonstrators

The Kawartha Woodturners Guild is searching for Demonstrators

The Kawartha Woodturners Guild meets at 7:00 pm on the 2nd Tuesday of each month (except for July and August) at the Peterborough Lions Center. For each of these meetings we have a demonstrator show the guild some type of woodturning project on the lathe.

We are excited to invite passionate woodturners to share their skills, stories and creativity at our upcoming demonstrations.

Whether you are a new or experienced woodturner, a craftsman, an artist, or someone with a unique technique or perspective, we would love to hear from you.

We are looking for engaging demonstrations that inspire, teach and celebrate woodturning for the beginner through to the advanced turner. Demonstrations should be no more than 90 minutes in length.

Demonstration ideas might include:

- **Basic Woodturning techniques and tool use**
- **Unique woodturning projects**
- **Spindle oriented grain turning**
- **Bowls oriented grain turning**
- **Vase or hollow form turning**
- **Turning lidded boxes or vessels**
- **Embellishment of woodturnings**
- **Finishing and surface treatments**

If you are interested in demonstrating for us, please contact us at admin@kawarthawoodturners.ca and let us know what you have in mind for a demonstration.

We are looking forward to your participation in celebrating the art of woodturning
